PRINTABLE CHECKLIST

Seven Critical Vastu defects to check

Check these seven placements on a floor plan before you buy or move in. If any one is present, it is a Critical defect: no remedy short of structural change alters the grade.

- [ ] **1. Toilet in the north-east**
  Critical. Only moving the toilet changes the grade.
- [ ] **2. Kitchen in the north-east**
  Critical. Only moving the kitchen changes the grade.
- [ ] **3. Main door in the south-west**
  Critical. Only changing the door's position changes the grade.
- [ ] **4. Staircase in the north-east**
  Critical. Associated with head and spine health. Only moving the staircase changes the grade.
- [ ] **5. Staircase at the centre of the home**
  Critical. It blocks the Brahmasthan. Only moving the staircase changes the grade.
- [ ] **6. Toilet above or below the puja room**
  Critical in a multi-storey home. Only moving the toilet or the puja room changes the grade.
- [ ] **7. Toilet above or below the kitchen**
  Critical in a multi-storey home. Only moving the toilet or the kitchen changes the grade.
- [ ] **8. Any of the seven present?**
  If yes, the only fix in our rules is structural change, which needs a professional.
