VastuScan

PRINTABLE CHECKLIST

Vastu remedies to try, in cost order

Use this when a room sits in a weak direction. It lists what to try, from free changes upwards, and where spending cannot help.

- [ ] **1. Change the way you sleep**
  Changing the head position is a no-cost remedy: no work and no purchase needed.
- [ ] **2. Rearrange the furniture**
  Moving furniture positions is in the no-cost tier of our remedies.
- [ ] **3. Declutter the weak zone**
  Decluttering a specific zone is a no-cost remedy; do one zone at a time.
- [ ] **4. Keep toilet doors and lids closed**
  A no-cost habit that our rules list under remedies.
- [ ] **5. Change a room's use**
  For example, swap a bedroom and a study. No building work is involved.
- [ ] **6. Try colour, plants, mirrors or lighting**
  Low-cost tier, Rs 500–Rs 3,000. Mirrors must never face the bed or the main door.
- [ ] **7. Repaint or repartition if still weak**
  Medium tier, Rs 3,000–Rs 15,000: repainting, lighting fixtures, partitions or curtains between conflicting zones.
- [ ] **8. Upgrade the main door**
  Medium tier: solid wood, properly painted, no cracks. A brass or copper threshold is a low-cost option.
- [ ] **9. Hand structural questions to a professional**
  Relocating a kitchen or bathroom, changing door positions, adding or removing walls: the app does not give structural advice.
- [ ] **10. Check the grade before spending**
  If a placement has no remedy in our rules, no purchase will fix it; moving the structure or the room's use is the only solution.

NOTES

Grades follow VastuScan's published Vastu rules. Vastu is traditional guidance; use it alongside a proper inspection.
